#### The Annual Quality Assurance Report (AQAR) of the IQAC

#### Part - A

#### **Data of the Institution**

(data may be captured from IIQA)

1. Name of the Institution N.B.K.R. Institute of Science & Technology

• Name of the Head of the institution : Dr. V. VIJAYA KUMAR REDDY

Designation : Director

• Does the institution function from own campus: Yes

• Phone no./Alternate phone no. : 08624-228547

• Mobile no. : +91 7382297655

• Registered Email : <u>ist@nbkrist.org</u>

• Alternate Email : <u>iqac@nbkrist.org</u>

• Address : Vidyanagar, Kota (Mandal)

• City/Town : SPSR Nellore (Dist)

• State/UT : Andhra Pradesh

• Pin Code : 524 413

**2.** Institutional status:

• Autonomous Status (provide the date of Conformant of Autonomous Status):

28 June 2019

• Type of Institution: Co-education/Men/Women : Co-education

• Location : Rural/Semi-urban/Urban : Rural

• Financial Status: Grants-in aid/ UGC 2f and 12 (B)/ Self financing

(Please specify) : **Self financing** 

• Name of the IQAC Co-ordinator/Director : **Dr. I. Prabhakar Reddy** 

• Phone no. /Alternate phone no. : **08624-228547** 

• Mobile : +91 9440366871

• IQAC e-mail address : iqac@nbkrist.org

• Alternate Email address : <u>ist@nbkrist.org</u>

**3.** Website address : www.nbkrist.org

# <u>Note</u>: Some Quality Assurance initiatives of the institution are: (Indicative list)

- Feedback from all stakeholders collected, analysed and used for improvements
- Academic Administrative Audit (AAA) conducted and its follow up action
- Participation in NIRF
- ISO Certification
- NBA, Autonomous, Research centre etc.
- Any other: Quality Audit

#### 8. Provide the list of Special Status conferred by Central/ State Government-

### UGC/CSIR/DST/DBT/ICMR/TEQIP/World Bank/CPE of UGC etc.

Institution/ Department/Faculty	Scheme	Funding agency	Year of award with duration	Amount (Rs)
Dr.M.Praveen Kumar	TARE	DST SERB	2019, 3 years	18,30,000

- **9.** Whether composition of IQAC as per latest NAAC guidelines: Yes/No: YES
- 10. No. of IQAC meetings held during the year: 4

The minutes of IQAC meeting and compliance to the decisions have been uploaded on the institutional website...... Yes,

Website: <a href="http://www.nbkrist.org/IQAC/meetings\_minutes.php">http://www.nbkrist.org/IQAC/meetings\_minutes.php</a>

- **11.** Whether IQAC received funding from any of the funding agency to support its Activities during the year? **No**
- 12. Significant contributions made by IQAC during the current year (maximum five bullets)
  - Huawei centre of excellence for communication system and Dassualt 3Ds Centre of Excellence in mechanical design are established.
  - Entrepreneurship awareness programes conducted.
  - Andhra Pradesh Skill Development Corporation established skill centres.
  - Academic audit system strengthened.
  - Campus placements improved.
  - Arranged e-learning classes by all faculties.
  - Minimum of two expert lectures are arranged by each department.
  - Increased awareness on research to all faculties.
  - Intensive placement training programmes are conducted from the first year onwards.
  - Student counselling and mentoring system are strengthened.
  - Upgraded the Computational facilities for the students and staff.
  - Laboratories are upgraded by procuring new equipment in all departments.
  - Faculty qualifications are improved. Some were awarded Ph D. Some have registered for Ph D.
  - Department wise more student association activities like technical quiz's, seminars, group discussions etc., were conducted.
  - Equal importance is given cultural festivals, sports.
- 13. Plan of action chalked out by the IQAC in the beginning of the Academic year towards

Quality Enhancement and the outcome achieved by the end of the Academic year

Plan of Action	Achievements	
Focus on industry Institute interaction.	<ul> <li>Skill transfer programme for IV B Tech ME and EEE students arranged by Prime Median Company, Medensha Corporation, Japan.</li> <li>More industrial visits arranged</li> </ul>	
Improvement in student —learning system.	<ul> <li>NPTEL courses.</li> <li>Workshops and guest lectures from Industrial experts are organized on robotics, internet of things.</li> <li>e-learning classes are organized</li> <li>Results improved.</li> </ul>	

More training programmes arranged for placements.	<ul> <li>The placements of the Institute improved</li> <li>English spoken tutorials</li> <li>Programming skills by IBM.</li> <li>Extensive training programmes organized by <b>Teamlease Company</b> for all UG students to train them for placement</li> <li>QEEE programmes in association with IIT, Chennai</li> </ul>	
Proposal to start skill development programmes	<ul> <li>APSSDC, AICTE-PMKY skill centres are established</li> <li>New labs established and new technical software procured. More computers with high configuration are procured.</li> </ul>	
• Strengthening the faculty and students research.	<ul> <li>More proposals submitted to funding agencies</li> </ul>	
Implementation of swatcha College.	• Swatcha College is effectively implemented.	
Improve transportation facility to student.	New buses are purchased.	
<ul><li>NBA accreditation</li></ul>	<ul> <li>All UG courses are accredited by NBA under Tier-1 for three years</li> </ul>	
UGC Autonomous status	Autonomous status continued for next five years	

**14.** Whether the AQAR was placed before statutory body? Yes /No: Yes Name of the statutory body: Management Date of meeting(s): 13-11-2018

- **15.** Whether NAAC/or any other accredited body(s) visited IQAC or interacted with it to assess the functioning? **No**
- **16.** Whether institutional data submitted to AISHE : Yes

Year: 2018-19 Date of Submission: 03-01-2019

17. Does the Institution have Management Information System? Yes

If yes, give a brief description and a list of modules currently operational. (Maximum 500 words)

- Yes. The college developed own knowledge management system.
- The college design and maintain college website <a href="www.nbkrist,org">www.nbkrist,org</a>. The website provides the information regarding the courses offered details of the faculty and staff, infrastructure and other facilities, examination details, library details, placement information, training programmes and workshops, hostel information, amenities, professional body activities, seminar/paper competition details and extra-curricular activities.

- ➤ The college maintains online attendance management system to provide the details of day to day attendance of all the students. It also provides the necessary information pertaining to academics like class work schedules, details of all the students etc.,
- ➤ The library continuously updates the information about the availability of books, journals and magazines through library management system. The faculty and student can access NPTEL, DELNET and other e-books from Institute library through intranet.

1.3.2 Field Projects / Internships under taken during the year

Project/Programme Title	No. of students enrolled for Field Projects / Internships
Internships, mini-projects	662

#### 1.4 Feedback System

1.4.1 Whether structured feedback received from all the stakeholders.

1) Students	2) Teachers	achers 3) Employers 4) Alumni		5)Parents
Yes	Yes	Yes	Yes	Yes

1.4.2 How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

The Feedback obtained from stakeholders through online portal and through meetings. The data is analyzed and their suggestions are considered and placed before the Academic Audit Committee for discussion and for possible incorporation in the curriculum. After collecting and assessing the feedback from the various stack holders on curriculum aspects, the valuable suggestions if any, will make notice to the curriculum committee to possible changes in the course structure for the next curriculum regulation. The College follows a continuous review system of the curriculum. The College established an IQAC for the infusion of Quality culture in the institute by implementing novel strategies to take out deficiencies and enhance quality in overall operations of the institute. The college makes efforts to integrate socially relevant issues into the curriculum with the help of the different cells functioning in the college like Anti-Ragging Cell, Grievance and redressel cell, NCC and NSS etc. The Academic Audit Committee ensure quality enhancement. IQAC has been organizing Faculty Development Program every year to enhance the professional competency and teaching pedagogy of the faculty. Curriculum is enriched through mini projects/ internships/student conferences/symposiums and Various technical & co-curricular clubs in the college.

## CRITERION II -TEACHING-LEARNING AND EVALUATION

#### 2.1 Student Enrolment and Profile

#### 2.1. 1 Demand Ratio during the year

Name of the Programme	Number of seats available	Number of applications received	Students Enrolled
B.Tech CE	180	155	82
B.Tech EEE	180	185	66
B.Tech ME	180	375	119
B.Tech ECE	180	920	178
B.Tech CSE	180	1000	175
B.Tech IT	60	72	16
M.Tech PS	36	15	5
M.Tech DECS	18	9	6
M.Tech CSE	36	3	1
M.Tech AMS	18	21	7

#### 2.2 Catering to Student Diversity

#### 2.2.1. Student - Full time teacher ratio (current year data)

Year	Number of students enrolled in the institution (UG)	Number of students enrolled in the institution (PG)	Number of full time teachers available in the institution teaching only UG courses	Number of full time teachers available in the institution teaching only PG courses	Number of teachers teaching both UG and PG courses
2018-19	2728	36	164	12	176

#### 2.3 Teaching - Learning Process

2.3.1 Percentage of teachers using ICT for effective teaching with Learning Management

Systems (LMS), E-learning resources etc. (current year data)

Number of teachers on roll	Number of teachers using ICT (LMS, e- Resources)	ICT tools and resources available	Number of ICT enabled classrooms	Number of smart classrooms	E-resources and techniques used
176	176	LCD Projectors with screens, audio system, laptops, printers, photocopier	41	4	DVDs, CDs, WEB cameras, Lecture Capturing System, wifi/ LAN, e-smart rooms, interactive white board

#### 2.3.2 Students mentoring system available in the institution? Give details. (maximum 500 words)

Number of students enrolled in the institution	Number of fulltime teachers	Mentor: Mentee Ratio
2764	176	15.70

#### 2.4 Teacher Profile and Quality

#### 2.4.1 Number of full time teachers appointed during the year

No. of sanctioned positions	No. of filled positions	Vacant positions	Positions filled during the current year	No. of faculty with Ph.D
176	176	-		54

#### 2.4.2 Honours and recognitions received by teachers

(received awards, recognition, fellowships at State, National, International level from Government, recognised bodies during the year )

Year of award	Name of full time teachers receiving awards from state level, national level, international level	Designation	Name of the award, fellowship, received from Government or recognized bodies
2018	Dr. S Maruthu Perumal	Professor & H.O.D	Longest Continuous SBC Award, Computer Society of India

#### 2.5 Evaluation Process and Reforms

2.5.1 Number of days from the date of semester-end/ year- end examination till the declaration of results during the year

Programme Name	Programme Code	Semes ter/ year	Last date of the last semester-end/ year- end examination	Date of declaration of results of semester-end/ year- end examination
B.Tech CE, EEE, ME, ECE, CSE	01,02,03,04,05	I Year	11-05-2019	16-07-2019
B.Tech CE, EEE, ME, ECE, CSE	01,02,03,04,05	II Year	15-05-2019	16-07-2019
B.Tech CE, EEE, ME, ECE, CSE	01,02,03,04,05	III Year	11-05-2019	16-07-2019
B.Tech CE, EEE, ME, ECE, CSE	01,02,03,04,05	IV Year	26-04-2019	22-05-2019

<sup>2.5.2</sup> Average percentage of Student complaints/grievances about evaluation against total number appeared in the examinations during the year

\*Do not include re-evaluation/re-totalling

20 Not include to cymmuton, to totally		
Number of complaints or	Total number of students	Percentage
grievances about evaluation	appeared in the examination	
16	590	2.71%

#### 2.6 Student Performance and Learning Outcomes

2.6.1 Program outcomes, program specific outcomes and course outcomes for all programs offered by the institution are stated and displayed in website of the institution (to provide the weblink)

Yes, Institute website (www.nbkrist.org)

2.6.2 Pass p	ercentage of students			
Programme Code	Programme name	Number of students appeared in the final year examination	Number of students passed in final Semester /year examination	Pass Percentage
01	B.Tech CE	125	117	93.60%
02	B.Tech EEE	101	98	97.02%
03	B.Tech ME	131	125	93.49%
04	B.Tech ECE	123	115	93.49%
05	B.Tech CSE	92	82	89.13%
	M.Tech Power Systems	4	4	100%
	M.Tech DE&CS	6	6	100%
	M.Tech AMS	7	6	85.71%
	M.Tech AMS	1	1	100%

### 2.7 Student Satisfaction Survey

2.7.1 Student Satisfaction Survey (SSS) on overall institutional performance (Institution may design the questionnaire) (results and details be provided as weblink)

#### CRITERION III - RESEARCH, INNOVATIONS AND EXTENSION

#### 3.1 Promotion of Research and Facilities

3.1.1 The institution provides seed money to its teachers for research,

Yes if yes give details

Name of the teacher getting seed money	The amount of seed money	Year of receiving grant	Duration of the grant
K.Raja Sekhar	5.9	2018	2018-2023
M Subba Reddy	2.915	2018	2018

3.1.2 Teachers awarded National/International fellowship for advanced studies/ research during the year

	Name of the teacher awarded the fellowship	Name of the Award	Date of Award	Awarding Agency
National	-	-	-	-
International	K.Ramesh Kumar	Ph. D admission	2018-19	Swinburne University of Technology, Singapore

#### 3.2 Resource Mobilization for Research

3.2.1 Research funds sanctioned and received from various agencies, industry and other organisations

Nature of the Project	Duration	Name of the funding Agency	Total grant Sanctioned in lakhs	Amount received during the year
Major projects	2 years	DST-TARE-SERB	18.30	2018
Minor Projects	1 year	ELIXON Technologies, Chennai	0.90	2018
	1 year	Technotron Hyderabad	1.00	2018
Interdisciplinary Projects				
Industry sponsored Projects				
Projects sponsored by the University/ College				
Students Research Projects (other than compulsory by the College)				
International Projects				
Any other(Specify)				
Total				

3.2.2 Number of ongoing research projects per teacher funded by government and non-government agencies during the years

#### 3.3 Innovation Ecosystem

3.3.1 Workshops/Seminars Conducted on Intellectual Property Rights (**IPR**) and Industry-Academia Innovative practices during the year

Title of Workshop/Seminar	Name of the Dept.	Date(s)
Cognitive Skills, Design Thinking and Critical Thinking	Institute Level	26/04/2019
Idea Competetion	Institute Level	28/03/2019
IPR workshop	Institute Level	24/01/2019
Future Industry Trends and Startups by Dr. AnandDeshpande	Institute Level	24/01/2019
workshop on Skill improvement on Industrial Robotics	Mechanical Engineering	21/01/2019 to 28/01/2019
Online IPR workshop	Institute Level	01-10-2019
Motivational seminar by Anand Mahindra(online)	Institute Level	01-08-2019
Entrepreneurship Awareness Camp	Institute Level	03/01/2019 to 05/01/ 2019
Awareness Program on Intellectual Property Rights and Patents	Institute Level	28/12/2018
ideation workshop for students by amit sharma sing Ex	Institute Level	27/08/2018
Train the Trainer Workshop On Innovation By Startup India	Institute Level	27/08/2018
Idea Pitching Workshop	Institute Level	27/08/2018
Entrepreneurship Need and Opportunities	Institute Level	27/07/2018

3.3.2 Awards for Innovation won by Institution/Teachers/Research scholars/Students during the year

Title of the innovation	Name of the Awardee	Awarding Agency	Date of Award	Category
Cash prize Rs35000	Lingareddy Harshavardhan	Startup india Andhra Pradesh yatra In Association with Sing EX	2018	Student
Pre incubation offer	Shaik Vaseem Akram	Startup india Andhra Pradesh yatra In Association with Sing EX	2018	Student
Pre incubation offer	Sameer Shaik	Startup india Andhra Pradesh yatra In Association with Sing EX	2018	Student
Pre incubation offer	Krishnasai	Startup india Andhra Pradesh yatra In Association with Sing EX	2018	Student
Selected for Sunrise Open Challenge Hacktathon(SOCH)	B.Rajendra Prasad	Innovation Valley,Government of Andhra Pradesh	2019	Faculty

4.4.2 Procedures and policies for maintaining and utilizing physical, academic and support facilities laboratory, library, sports complex, computers, classrooms etc. (maximum 500 words) (information to be available in institutional Website)

The physical facilities including Laboratories, Library, Sports, Computers and Classrooms are made available for the students those who are admitted in the college. All the stakeholders have equal opportunity to use those facilities as per the rules and the policies of the institution. The college ensures optimal allocation and utilization of the available financial recourses for maintenance and upkeep of different facilities by holding regular meetings.

Computers and Laboratories - Laboratory learning is a place where students can observe, practice, and experiment with objects, materials, phenomena, and ideas either individually or in groups to achieve a better outcome. The main objective is to "practice by doing", need to be fulfilled based on learning theory and supporting practical verification. To help ensure the smooth operation of the labs please follow the policies and procedures listed below.

### All students must wear appropriate safety equipment and furnish information in log book.

Removal of documentation, software, or equipment from the labs is prohibited.

Respecting the privacy of other users; do not try to access any files that belong to another user and Backing up your own data and protecting your own information.

Power must be switched off in an experimental circuit whenever the circuit is left unattended.

The circuit is being constructed or disassembled.

Any circuit changes must be made.

Do not make circuit connections by hand while circuits are energized. This is especially dangerous with high voltage and current circuits.

Soldering irons are essential in the development of circuits; however, users should handle these tools with great care because they can cause fires, serious burns, and the release of fumes when heating the solder.

**Library** - The required list of books is collected from the concerned departments and HODs are requested to prepare the list as per the options given by relevant department faculty based on curriculum. The final list is duly approved and signed by the respected Director. In addition, the following points are added. Identity Card is compulsory for getting access to the library. Registration should be done to become a library member prior to using the library resources Enter your name and Sign in the register kept at the entrance counter before entering library. The librarian may recall any book from any member at any time and the member shall return the same immediately. Library borrower cards are not transferable.

**Admission to Library:** Students are allowed to library only on production of their authorized/valid Identity Cards.

**Circulation Issue System:** Books will be issued on presentation of the library card along with the ID card. Students are instructed to check the books while borrowing and they will be responsible for any type of damage or mutilation noticed at the time of return.

**Overdue Charges:** Materials borrowed should be returned on or before the due date stamped, if returned late overdue fine will be charged for the delayed period.

**Book Lost:** If the books are lost, then the borrower shall replace the books of the same edition or latest edition or pay double cost of the book after getting permission from the librarian.

**Care of library borrower cards:** Take special care to maintain the library borrower cards. Do not fold, alter entries made on the cards, Members are responsible for the entire set of library borrower card issued to them.

**Loss of cards:** Loss of borrower card should be reported to the librarian. Duplicate card may be issued against formal application and fine.

**Validity of cards:** Library borrower cards are valid for the entire duration of the course to access library facilities at the end of the course borrower cards shall be returned to the library.

**Sports** - The Institute has sports facilities for indoor and outdoor games, since 1979, spread the area of 14 acres and utilized by the average of 200 students per day. Separate rooms are available for department, Table Tennis (men and women), Chess, Caroms, and Stores. In addition, Yoga and Gymnasium halls are also available. List of policies are given below:

Sports expects all individuals and teams involved in sport to participate showing sportsmanship, respect, consideration and appreciation towards their opponents, team-mates, officials and University staff at all times.

Under no circumstances should you react in a violent manner nor use any form of foul or abusive language, whether it is directed at a member of staff, match official, opponent, playing colleague, team official or spectator.

Individuals signing the player registration form are agreeing to abide by this code of conduct and will accept that any deviation from these rules will result in disciplinary action being taken by the University.

Persons under the influence of drugs are not permitted to participate in sport activities at the University and as such will result in disciplinary action. On a final note, please remember that no referee,

umpire or official is perfect, you won't agree with every decision that is made and, just like players, they make mistakes too.

**Classrooms** – The classrooms, lecture halls and Laboratories are fully furnished with state-of-the-art technology to be at par with the standards. Class rooms are spacious, well- ventilated with natural light and adequate electrical facilities. Ergonomically designed furniture, teaching aids like LCD projector with computer facility are used in teaching - learning process. In addition, the following policies are there such as Do not have private discussions to avoid noise distraction to other students.

Turn mobile phones off is compulsory because it is very distracting to hear someone's mobile phone go off in class. State-of-the-art smart classroom is available with internet access through fiber-optic connections or Wi-Fi access with smart board. Special sessions and classes are also held on negotiation skills, effective communication, leadership, teamwork and analytical skills.

### CRITERION VI -GOVERNANCE, LEADERSHIP AND MANAGEMENT

# 6.1 Institutional Vision and Leadership

6.1.1 Mention two practices of decentralization and participative management during the last year (maximum 500 words)

The institute practices decentralized and participative management approach in all its activities, initiatives and decision making by involving in-charges, heads of the departments and faculty members at all levels. Several committees are in place to review the progress of various activities and accordingly take necessary timely action for ensuring excellence in respective areas. The management, director and heads of the departments meet frequently to review plans and update academic and administrative matters.

# Case Study: Purchasing of Equipment

In every academic year lab in-charge will make an estimate of recurring and non-recurring budget. Then lab in-charge holds a meeting with concerned senior faculty members in that specialization to discuss about the requirements of maintenance and procurement of equipment and miscellaneous items. The senior faculty and lab in-charge together finalises the necessary equipment required for that academic year. The lab in-charge then submits a note the director through proper channel with all specifications and approximate cost of the equipment seeking permission to initiate the process of procurement. HOD may call for a meeting of concerned faculty to seek clarifications if any, related to the procurement before recommendation. Subsequent to the approval by the Director, lab in-charge seeks a minimum of three quotations from different suppliers with the detailed specifications and price. The Lab in-charge prepares a comparative statement for all the quotations and finalises the supplier based on the supplier's previous track record, client base, client's feedback and cost of the equipment with proper justification. A note is then be submitted to the Director with finalized supplier details along with the comparative statement recommendation and approval from the HOD. In consultation with the finance committee, the approval for purchase is granted by the director. The administrative officer and accounts department of the institute handle the purchase process and other logistics till the equipment is delivered to the department.

The same procedure is adopted for up gradation of existing equipment in the laboratories.

# **6.4 Financial Management and Resource Mobilization**

6.4.1 Institution conducts internal and external financial audits regularly (with in 100 words each)

Every financial year budget proposals are made on different heads such as laboratory equipment, library expenses, salary payments, building infrastructure and other maintenance expenses. These proposals are verified by the finance committee and submitted to the governing body for its consideration and approval.

#### **Internal audit**

A institute level finance committee comprising of the Director, Auditor and a senior faculty member recieves, reviews and suggests appropriate changes in the proposals received under various heads from all the departments in the institute. The internal finance committee examines the budget proposals, receipts, bills and vouchers and supporting documents for the current year and takes care of the continuous internal audit of the institution. The finance committee, after the scrutiny, may caution the concerned department for any possible deviations from the established procedures.

### External audit

A chartered accountant and his team are engaged to carryout external audit. The financial audit team visits the institute regularly to carry out the auditing. Any audit objections found /raised in the external audit are notified to the accounts officer and the director. Objections are dropped if an acceptable justification is provided. Otherwise, depending on the seriousness of the objection(s), the audit team suggests appropriate measures to prevent their recurrance. The accounts audited are submitted to the governing body for approval.

  - 1) Solar power plant 300kW
  - 2) Rain water harvesting pits
  - 3) Tree plantation
  - 4) Awareness programme on stop plastic usage by NSS
  - 5) Waste management

#### 7.2 Best Practices

Describe at least two institutional best practices

Upload details of two best practices successfully implemented by the institution as per NAAC format in your institution website, provide the link

#### **Best Practice No. 1**

#### 1. Title of the Practice

Usage of Renewable Green Energy by harnessing nature's power

# 2. Objectives of the Practice

The objective and the expected outcomes of Green initiatives are:

Installation and usage of renewable power sources and minimize the power consumption from the grid.

#### 3. The Context

In the last two centuries consumption of fossil fuels has increased rapidly, leaving fossil fuel reserves depleted and climate change seriously impacted. Their reserves are becoming harder to locate, and resources will not last forever.

Solar Energy is one of the most reliable sources of renewable energy available to us today. The world is currently racing to make this technology widespread, especially with the ever alarming threat of global warming. Renewable energy, which has minimal to none carbon footprint, is essential to make our world and our environment a better and healthier place to be in.

Unlike fossil fuels, green energy made from solar power is sustainable, because it is generated by resources that won't run out. In addition, it provides a way to fight climate change by reducing and even offsetting carbon emissions.

Energy payback for solar power technology is just two to three years. That means it only takes two years for a solar system to make the same amount of energy used in its manufacture and installation. And after that, it can provide decades of clean energy that's better for the planet.

In order to play the role of fighting the climate change and protecting the future of our planet, NBKRIST started investing in renewable sources of energy.

#### 4. The Practice

A 300 KW solar system has been installed on the roof top of the academic buildings.

#### 5. Evidence of Success

The total power consumed during 2019-20 was 6,46,635 KWH. Out of which the solar plant generated 4,32,095 KWH. Remaining 2,14,540 KWH was utilized from the Power Grid. A power of 1,37,642 KWH was exported to the Grid.

### 6. Problems Encountered and Resources Required

In case of grid failure we supply power to the campus from Generators. During this period solar power is not utilized. In such cases a part of the power can be shared from the solar system by switching on the inverters. But the inverter power should be at any time more than the generator power. Otherwise the power will be pumped in to the generator. Skilled technicians should carefully switch on the number of inverters by monitoring the power consumed.

#### **Best Practice 2**

**Title: Outcome Based Education (OBE)** 

# **Objectives of the Practice**

Best practices are followed in imparting education to the students making them skilful in multifaceted areas. Opportunities and facilities are created for the students for their best utilization. Students are timely motivated through an effective counselling system which is followed in the Institute. Sufficient exposure is given to the students to the outside world in the form of internships, educational tours, expert guest lectures.

#### Context

With outcome based education the future scenario of higher education especially in engineering discipline looks very optimistic as individual course outcomes are defined to achieve program outcomes and in turn the graduate attributes which attempts to ensure the best possible approach for engineering education.

Outcome based education guarantees that graduating engineers are employable and qualified to enter higher degree programs in engineering. In order to achieve these composite educational objectives, institutes have to measure the depth of knowledge, problem analysing ability, ethics, lifelong learning and project management and finance among others. Changes in technology take place time to time because of which the methodologies related to teaching and learning also should be revised accordingly. In the present scenario of having varied learning levels of the students, the outcome based learning would be essential. There is a need for identification of slow and fast learners, based on which remedial classes and advance classes are to be conducted.

#### The Practice

The following practices are attempted to achieve effective outcome based education.

1.Bridging the skill gap and Need Based Curriculum

A continuous update approach is adopted with regard to curriculum and faculty training. Curriculum is updated on need-based and electives are offered to meet the requirements of the present industry. Faculty are encouraged to enrich their knowledge in the specialized advanced topics by attending faculty development programmes. Guest lectures are arranged by industry experts. Students are exposed to industry work environment through regular field trips.

1. Effective Teaching and practical Based Learning

In NBKRIST, teaching-learning is more of student cantered activity. The institute makes a distinct contribution by improved methods of instruction. The chief mode of teaching by lectures gives an exposition of a topic. These lectures are supplemented by other methods which make teaching-learning process more active and creative for the student.

Learning experiences of the students are enriched by providing state —of-art educational technologies. Interactive instructional techniques that engage students in higher order thinking and investigation, through seminars, focussed group discussions, debates, projects, presentations, internship and application of Information and Communication Technology (ICT) resources are introduced. Technologies such as videoconferencing, call-in and online discussions are used to expand and create new types of teaching activity. Faculty who handle the programmes of study are encouraged to acquire adequate, competitive and continuous professional development. Usage of computers is enhanced to immensely enrich the teaching programmes. This will enable the students to learn anything, anywhere and expose them to the possibilities of the latest information on any subject. Internship for the students in renowned institutions and research centres sows the seed for higher learning and research motivation to be part of the learning-process. Teacher and Students visits to the relevant industrial sites inculcate a practical on-site learning experience. All the students are educated regarding the program outcomes. Each department prepares its own academic plan by incorporating the programme inputs and outcomes. Same is communicated to the students and staff.

The course outcomes of each course are evaluated qualitatively and quantitatively for each student. Qualitative methods indirectly help the students to improve the quantitative attainment levels of each course. The quantitative attainment level of each student on each course outcome is measured using semester internal examination and end examinations.

#### **Evidence of Success**

By practicing the outcome based education, the drawbacks in the teaching and learning process is clearly evident to both the students and the faculty. It helped in identifying the areas where improvements are required to be taken up. Proposals are received from various departments for strengthening the facilities in order to implement modified methodologies.

# Problems encountered and resources required

Adjustment of time-table for the purpose of arranging more number of expert guest lectures is found difficult. Another problem is in deputing the faculty for long duration faculty development programs during the semester.

#### **Best Practice No. 3**

#### **Title of the Practice:**

#### ATTENDANCE MONITORING SYSTEM

## 1. Objectives of the Practice:

To monitor student's attendance

#### 2. The Context

The students admitted in this institute are mostly from rural background and have no awareness of the attendance importance, which leads the students irregular from academics and slowly the irregularity spoils academic future of those students. To avoid such, the organization has been practicing attendance monitoring system, which includes sending everyday attendance, subject wise marks to parents automatically once after posted in online attendance monitoring system.

### 3. The Practice:

Self developed attendance monitoring website and software.

### 4. Evidence of Success:

The system proves highly successful in monitoring students' attendance and to give follow up to the slow learners and helpful for students; improvement in attendance wise and also in performance.

### 5. Problems Encountered and Resources required:

Average of the students' marks and getting hard copies of marks was difficult to get quickly but they are all modified at their need by the institute software developer. NBKRIST has a strict attendance monitoring system which includes:

Updating hourly basis online attendance every day.

Class In-Charges and section Class In-Charges monitor individual attendance of the students on regular basis.

SMS is sent automatically to the parents of absentees every day.

Counselors do Counseling to regular absentees every week.

The exclusive software displaysirregular students' attendance in different colours on attendance portal.

Special care is being taken for the students who got below 65% attendance.

Students below 75% attendance submit their Show cause letters to the Director through the upward channel

Concerned subject faculty posts all types of marks of every student in online attendance portal.

Parents' meeting is being conducted for slow learners and irregular students once a month.

#### 7.3 Institutional Distinctiveness

Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust Provide the weblink of the institution in not more than 500 words

In order to fulfill the vision, NBKRIST is striving to emerge as a comprehensive Institute that provides quality technical education and research thereby building up precious human resource for the industry and society.

The areas mentioned below are focused in general to satisfy the needs of all the stakeholders by building up effective human resource which serves the industry and society.

- 1.A learner-centered environment is provided in the Institute that challenges individuals to actively participate in the education process.
- 2. Faculty are empowered to excel in teaching while engaging in research, creativity and public service.
- 3. Facilities are provided for the learners to improve their effective skills which enable them in picking up critical thinking thus crafting them to be professionally fit and ethically strong.
- 4. The Institute is reaching out industries, schools and public agencies to partner and share human and academic resources.

**Distinctive Area:** The Institute is putting all its efforts in reaching out the industries, thereby creating a meaningful Industry-Institute Interaction. The Institute has an MOU with Medensha Corporation, Japan for conducting a Skill Transfer Program. Under this program, a 45 hour duration program is conducted for a batch of selected students every year. Subject experts from Japan visit the college and deliver lectures as a part of the program. Participants of this program have an opportunity of undergoing internship during summer vacation. Those who are short listed by the evaluation of performance in the training and internship are absorbed in their transformer manufacturing company, Prime Meiden Ltd.

Dassault Centre of Excellence has been established in the Institute. It is supported by APSSDC. The main idea of this centre is to train the students in the area of modeling, simulation and analysis and make them as industry ready engineers. The institute is also recognized as a global certification centre of Dassault 3D experience system.

SAE Collegetive club exists in the Institute. Under this club students are trained to design and fabricate automobile vehicles. This gives an opportunity to the students to participate in the national competitions like BAHA Tractor design competition.

The Institute has membership in Robotic Society of India. Under this society various training programs are conducted in the field of automation and robotics. It also conducts hands on training on industrial robotics in the college.

AVEVA centre of excellence has been established in the Institute. This helps the students and staff in getting training in the area of plant design and manufacturing systems.

One month internship has been made mandatory for the students to get credits as a part requirement of the degree. Regular industrial visits help the students understand the environment of work places.

Professional Student Chapters like IEEE, ISTE, IETE, and CSI are in place in the Institute. The technical associations of various departments and several student run clubs give opportunity to the students in improving their skills. The guest lectures by the industry experts are arranged with an idea of giving exposure to them about the industry advances. The students interact with their counterparts of other colleges during the technical and cultural fests and share their experiences.

# 8. Future Plans of action for next academic year (500 words)

- Quality improvement in research publications.
- Preparing faculty to submit more proposals for funding
- Establishment of COE in each department.
- International Conference in the institute.
- Video Lecture capturing and e-Lecture notes for 1<sup>st</sup> B.Tech(2019 Reg.) & 3<sup>rd</sup> B.Tech(2017 Reg.)
- NAAC reaccreditation.
